

Dember 18, 2025: America, Your military is who sold your country into slavery.

I am now experiencing an onslaught of 'celebration' vehicles as they seemingly celebrate a 'victory' over the only person in America that tried to save the country from the USA military's treason.

Honestly, USA military, you all are some demented and lost souls.

May God have mercy on you all.

You truly ruined yourself - as a member of your family, I am providing you with the stern assessment that you have officially hit 'rock' bottom.

You are mentall ill, America. It's true.
